

2 March 1983

MEMORANDUM FOR: Director of Central Intelligence

FROM: SA/DCI/IA

SUBJECT: World Wide Briefing for the Senate Foreign
Relations Committee, 3 March 1983

1. This is a revised book for your World Wide briefing tomorrow. It includes:

- The latest version of the text.
- Question and Answers.
- A list of the briefing team.
- A list of the committee members and their biographies.

2. I have omitted copies of the graphics in order to keep the book thinner. If you wish to have a copy, I will gladly provide you with one. For this briefing we have improved the quality of three boards. In addition, we have obtained page size prints of military equipment Ted Atkeson has used in the past. (Ted is ill and will stand in for him tomorrow.)

3. Please let me know if there is anything I can do for you for this briefing.
